

Verse #1 Give It Your All Forever
my hope will never die,
no more failure in sight,
time for a new beginning,
let the light come and shine
open my mind and heart,
tap into the source of power
this is my time to rise
no more feeling cower

Chorus

my hope will never change,
no more failure will bring
light to open my mind and prospering
time's ahead my hope will never
change, no more failure will bring
light to open my mind and
prospering time's ahead ~~##~~

Verse #2

Change the way I view life, no
more feeling down time to take
control, no more being pushed around
gonna take charge and be the
captain of my own ship focus on
the future, no more living in the
past trip

Chorus

My hope will never change
No more failure, will bring
light to open my mind and
Prospering times ahead my hope
will never change, no more
failure will bring light to
open my mind and prospering
times ahead
